

City of East Hampton, MA

**Dear Highway Safety Systems, Inc.**

On 8/21/2006 you sent a crew to paint the center lines for the City of Easthampton, Department of Public Works. The foreman that I sent to work with your crew reported to me that *your crew was the best line painting crew that he had ever worked with*. He told me that they were on time and ready to go when they arrive. He said that they were courteous, professional, and accommodating. He also said that the dynamics of your crew is such that all members worked together while maintaining a sense of humor throughout the night.

Your foreman maintained the accuracy of the lines while insuring that the work was done to specifications.

I am pleased with the quality of work and I look forward to future contracts with your company.

Sincerely,

Joseph Pipczynski  
Director of Public Works  
City of Easthampton, MA
